BETHEL ROTARY CLUB HEARS DISTRICT GOVERNOR TUESDAY

On Tuesday, Aug. 8, the Bethel Rotary Club hosted District Governor of Rotary International, Philip Matte of Three Rivers, Que., Can., at its regular meeting in the Sudbury Inn in Bethel.

An audience of 25 local members and nine visiting Rotarians—three of the latter with homes as far away as Marco Island, Fla., Dublin, Ga., and Birmingham, Ala., heard Phil Matte outline the new program for Rotary International in the field of aid to the 3 H's (health, hunger and general humanitarian needs) in areas of the world where these problems are most acute.

The District Governor's main mission on this visit is to enlist the support of the Bethel club in a broad effort of financial aid to these problems in third world countries—particular emphasis is on the children as they are seen to suffer most when severe shortages exist in areas of chronic poverty and malnutrition.

Through Rotary's fund raising activities at the local level, Rotary International hopes to funnel effective resources into the hands of foreign health and food authorities so that the three H's can be improved.

CEMENT WORK COMPLETED

The foundations for the new Jackson-Silver Post, American Legion, building in Locke Mills were poured last week. Located a short distance off Route 26 on the Gore Road, the building will be constructed by members of the Post. Anyone wishing to contribute any assistance is asked to contact W. G. Smith.

COMMENTS FROM THE TOWN MANAGER'S OFFICE

Forms for elderly householder's tax and rent refunds and for the elderly low cost drug program are now available at the Town Office. The tax and rent refund forms must be filed with the Bureau of Taxation prior to Oct. 15, 1978.

Individuals applying for tax or rent refunds must have owned or rented living quarters in Maine, occupied by them as their home during the entire year 1977. At least one member of the household must have either reached the age of 62 in 1977, or be an unmarried widow or widower who has attained the age of 55 in 1977 and who is receiving Federal disability payments, such as SSI.

The maximum income of a one member household is \$5,000 and of two or more \$6,000. No refunds of less than \$5 or more than \$400 will be paid. Tax bills or rent receipts are not required unless requested by the Bureau of Taxation. 1977 income, property tax and rent payments are used as the basis for calculating refunds.

The Elderly Low Cost Drug Program is administered by the State Department of Human Services. It provides eligible elderly individuals with the opportunity to obtain certain life sustaining drugs for diabetes, heart condition, and high blood pressure at a cost of \$1 per prescription.

Requirements include that the applicant must be a legal resident of the State of Maine. continued on Page Ten

LOCAL CEMETERIES FEATURED AT MEETING OF BETHEL HISTORICAL SOCIETY

A program on Bethel cemeteries was featured at the monthly meeting of the Bethel Historical Society last Thursday evening in the meeting room of the Dr. Moses Mason House. During the last year the Society obtained a CETA grant to have all cemetery markers in town recorded and placed alphabetically in a file so that this information can be easily made available to genealogists and historians who frequently visit Bethel in search of such data.

There are at least 17 grave sites in Bethel. These are, including their location and period of use, the following: Abbott Family (East Bethel Road, 1823-1902); Bartlett (East Bethel Road, late 18th century to mid 19th century); Bird Hill (Bird Hill Road, mid 19th century to early 20th century); Blake Hill (Route 26, mid 19th century); Chandler Hill (Chandler Hill Road, mid 19th century to early 20th century); East Bethel (East Bethel Road, 1823 to present); Flat Road (Flat Road, West Bethel, mid 19th century to present); Grover Hill (Steam Mill, U. S. Route 2, West, late 18th century to present); Holt Hill (off East Bethel Road, mid 19th century); Middle Intervale (East Bethel Road, early 19th century to present); Mount Will (U. S. Route 2, East, early 19th century to present); Peary Family (off East Bethel Road, mid 19th century); Pine Grove (West Bethel, U. S. Route 2, West, mid 19th century to present); Riverside (Northwest Bethel road, late 18th century to present); Stanley Family (East Bethel Road, 1802 to present); Walker's Mills (Route 26, mid 19th century to present); and Woodland (Route 5, south, early 19th century to present).

Several of the larger cemeteries have associations to operate them. Most of these organizations began in the early decades of the twentieth century. Problems of money, land, marker maintenance and lot care seem to have been their major concerns according to Society Director Stanley R. Howe, who provided a commentary on Bethel's cemeteries.

Other graveyards are in need of attention, Howe stated, but some progress is being made, citing the work of the Youth Conservation Corps on Bartlett, Bird Hill and Chandler Hill cemeteries. Several persons requested information on grave sites in Bethel and the card files were checked by Mrs. Jean Grover who assembled them.

Following this presentation a film "The Stone Whistle" was shown which focused on the need to be remembered through appropriate markers and monuments. Refreshments followed the program.

During the business section of the meeting a nominating committee consisting of Donald Eddy for the Trustees and Maxine Brown and Betty Perkins from the general membership was selected. They will provide a slate of officers to be approved at the next meeting which will be the annual meeting. It was also announced that a pot luck supper to begin at 6:30 p. m. will precede the annual meeting.

On Aug. 19, the Bethel Rotary Club will hold its summer auction in the same vicinity.

MOTEL PUBLICATION STARTS SECOND YEAR

This month the Kosdale Guide and TV Listings, a publication designed for motel and hotel guests, will begin its second year of distribution in the Maine and New Hampshire area. Although distributed in over 17 other states by the Phoenix, Ariz., based publisher, Kosdale Corporation, the guide's distribution from Bethel is the first in New England.

During the first year, five editions covering the Mt. Washington Valley, Gorham and Berlin, N. H., as well as the Lewiston-Auburn, Rumford and Bethel, Norway, South Paris areas in Maine were placed in 63 motels, inns and camping areas. The largest circulation is in the Mt. Washington Valley where 30 motels use the guide in over 500 rooms.

According to Don Bennett of Bethel, local distributor and sales manager, reason for the quick acceptance of the Kosdale Guide by motels and advertisers has been best expressed by a Gorham, N. H., motel owner. He preferred the quality of Kosdale's paperstock and printing over other guides he had seen. Also, according to Bennett, the guide fast became a souvenir item. In some cases guests have taken so many copies with them that the motels have used more than triple the usual amount needed to keep one in each room.

LOCAL CEMETERIES FEATURED AT MEETING OF BETHEL HISTORICAL SOCIETY

A program on Bethel cemeteries was featured at the monthly meeting of the Bethel Historical Society last Thursday evening in the meeting room of the Dr. Moses Mason House. During the last year the Society obtained a CETA grant to have all cemetery markers in town recorded and placed alphabetically in a file so that this information can be easily made available to genealogists and historians who frequently visit Bethel in search of such data.

There are at least 17 grave sites in Bethel. These are, including their location and period of use, the following: Abbott Family (East Bethel Road, 1823-1902); Bartlett (East Bethel Road, late 18th century to mid 19th century); Bird Hill (Bird Hill Road, mid 19th century to early 20th century); Blake Hill (Route 26, mid 19th century); Chandler Hill (Chandler Hill Road, mid 19th century to early 20th century); East Bethel (East Bethel Road, 1823 to present); Flat Road (Flat Road, West Bethel, mid 19th century to present); Grover Hill (Steam Mill, U. S. Route 2, West, late 18th century to present); Holt Hill (off East Bethel Road, mid 19th century); Middle Intervale (East Bethel Road, early 19th century to present); Mount Will (U. S. Route 2, East, early 19th century to present); Peary Family (off East Bethel Road, mid 19th century); Pine Grove (West Bethel, U. S. Route 2, West, mid 19th century to present); Riverside (Northwest Bethel road, late 18th century to present); Stanley Family (East Bethel Road, 1802 to present); Walker's Mills (Route 26, mid 19th century to present); and Woodland (Route 5, south, early 19th century to present).

Several of the larger cemeteries have associations to operate them. Most of these organizations began in the early decades of the twentieth century. Problems of money, land, marker maintenance and lot care seem to have been their major concerns according to Society Director Stanley R. Howe, who provided a commentary on Bethel's cemeteries.

Other graveyards are in need of attention, Howe stated, but some progress is being made, citing the work of the Youth Conservation Corps on Bartlett, Bird Hill and Chandler Hill cemeteries. Several persons requested information on grave sites in Bethel and the card files were checked by Mrs. Jean Grover who assembled them.

Following this presentation a film "The Stone Whistle" was shown which focused on the need to be remembered through appropriate markers and monuments. Refreshments followed the program.

MASON RETIRES AS NATIONAL FOREST WARDEN

Leland E. Mason of Gilead, a White Mountain National Forest Fire Warden for the past 30 years has retired. On Tuesday, Aug. 8, Evans Notch District Ranger Stephen Parsons, and Assistant Ranger Don Clymer, presented Mr. Mason with a Certificate of Appreciation for his long, and dedicated service as a warden.

The Certificate of Appreciation is suitable for framing and was accompanied by a letter from the U. S. Forest Service which read:

Dear Mr. Mason, This Certificate for Meritorious Service is being presented to you in recognition for your many years of service as a National Forest Fire Warden.

Please be assured that the Forest Service greatly appreciates the dedicated service you have given. Over the years you have issued fire permits and provided information to countless users of the White Mountain National Forest. This has been an invaluable public service.

In addition to the Certificate, we would like you to accept the Forest Fire Warden badge, which you have worn for so many years. We hope that these awards will mean as much to you as your service has meant to us.

Sincerely, Stephen A. Parsons District Ranger

The Flight 705

Alec Newell, age 8½ (First place essay in the Creative Writing Contest, Mini-Match Competition, Aug. 4, Bethel Summer Playground).

A family was riding to the airport to go to St. Louis. They got the tickets to the flight 705. They got on the plane. They took off. The loud speaker said fasten your seat belts! We are flying over the ocean. The Pilot said to his Co Pilot "Look! One of the engines is on fire. Look there on a island. We'll try to do a crash Landing." BOOM! We crashed. "Is everybody all right?" and is everybody out. We'll find a cave." And they did. There was a storm the night they got there. "Did any one bring the radio," asked the Pilot. "Yes." "Good. I'll go look for food." Two people were sick. They took all the supplies they needed. In the morning, a group of people searched the island. They heard on the radio that the coast guards were searching for the 705. But one day they heard a boat was coming to the island. They climbed the mountain and saw the boat. They ran down the mountain. "Does anybody have a mirror. So I can signal the boat?" "Yes," and they were rescued. — The End.

The Best Advertising
Selling your home? Then your first thought will, no doubt, be advertising it. You may start by planting a "For Sale By Owner" sign in your front lawn. But will this be seen by enough—or any—prospective buyers? Then—newspaper advertising. This can become more costly and less effective than you think if done improperly. It could even lead to over-exposure of the house to the point where, if you should decide later to consult a Realtor, good prospects already will have seen the property and, having failed to buy, will be harder to interest a second time.

Upton

— Mrs. Arline Bernier, Corres. —
The Missionary and Alliance Church held their regular service in the Upton Union Church with a good attendance Sunday. This group will use the church building for the next three Sundays.

Mr. and Mrs. Charles Heywood cleaned the church building one day last week.

The planning board met Monday evening. Mr. and Mrs. Donald Scott were present to discuss problems with their building plans. Anita Harris and Edward Brennon were present to discuss the Harris boat landing plans which have been State approved with reservations due to new findings.

Mr. Heywood is inviting all people interested in the Upton Church building to gather there Saturday evening and discuss the situation.

The Earl Largesse family and the Armand Lavalles have rented a camper trailer in preparation for a future vacation.

Mr. and Mrs. Valentine and three children of Connecticut parked their camper in the Arons dooryard for a vacation and visit with their friends.

Charles and Phyllis Heywood of New York are visiting his father and Ellen. Mr. Heywood and Bill Harris flew back to New York Sunday.

Frank Lowell and crew have been haying along the river this past week.

WALKING WITH JESUS CHRIST
Words of the Bible

The word "quicken" — if we think about it, sounds odd, especially when we say "quicken" quickly several times, we may even smile over it. Our dictionary defines it many ways, such as — move more rapidly — stir up — endowed with life, etc.

The Bible uses it in several forms, some 75 times — translated from Hebrew it means "to live" — while the Greek meaning is "make alive" signifying the living as opposed to the dead.

All the words in the Bible have real meaning and glancing over words so as not to get its meaning is a disservice to its author. God has a great deal to say to us — seems to be a condensation, this Holy Bible — because in the last chapter of John, last verse, He tells us: "And there are many other things which Jesus did, the which, if they should be written everyone, I suppose that even the World itself could not contain the books that should be written."

"Take the word 'quicken' for example, in I Cor. 15:45 'and so it is written, the first man Adam was made a living soul; the last Adam (Jesus) was made a quickening spirit'. This means that Jesus can quicken us from a world of sin and darkness into a new life of joy and peace. Ephesians 1:15 — One may ask — how is it that true believers, Christians, can read the Bible and understand its meaning when others cannot? Simple — Having accepted Christ as Lord — our spiritual eyes and ears are opened to receive His Word. "Then opened He their understanding, that they might understand the scriptures." Luke 24:45.

It is no wonder, people, even the wise, simply cannot understand the scripture as the Christian can. "That ye might walk worthy of the Lord into all pleasing, being fruitful in every good work, and increasing in the knowledge of God." Col. 1:10.

To receive the understanding — all we need to do is — acknowledge Christ as Lord and Saviour — then we can say as in Ephesians 2:1 "And you He hath quickened who were dead in sins and trespasses" — and hath quickened us together with Christ and hath raised us up together, and made us sit together in heavenly places in Christ Jesus."

MAINE AUDUBON SOCIETY

SEEKS PROTECTION FOR COASTAL ISLANDS

In a hearing before the Land Use Regulation Commission in Machias on Wednesday, Aug. 2, Cheryl Ring, spokesperson for the Maine Audubon Society, asked the Commission for more protective zoning on the 116 coastal islands under its jurisdiction.

She pointed out that coastal islands are a unique and valuable resource and that zoning must reflect their special character. "Now is the time to preserve the traditional character of islands for future generations. Islands can be thought of as non-renewable resources — if they are carelessly developed, they can never again be restored to their pristine condition."

Maine Audubon believes that development on islands should only occur under well-defined restrictions. Limited fresh water supplies and poor soils for sewage disposal severely limit development on coastal islands. "It is impossible for most islands to support any new development without irreparable harm both to the delicate island ecology and to the natural character of the island. Monhegan is a good example, in that development has gone about as far as it can go. The year-round residents would like to restrict all new development on the island to one area only, and to preserve the rest of the island in its natural state," Ring suggested that LURC support the wishes of Monhegan residents and increase the number of protective zones on the island.

Some of the most rare and unusual bird species in Maine nest on offshore islands. Colonies of Arctic, Roseate, and Common Terns, Black Guillemots, Leach's Storm-petrels, Puffins, Razor-Billed Auklets, Black-Crowned Night Herons, and Laughing Gulls use islands as their only nesting grounds. Ring praised the zoning subdistricts on several islands as adequately protecting nesting birds, but she noted that there are still many islands supporting significant numbers of breeding birds which are zoned for increased development. She stressed the critical need for undeveloped buffer zones between houses and breeding colonies. "The presence of people and houses will always negatively impact a colony of ocean or shore birds. Islands are attractive nesting areas due to the lack of predators and human interference. Any disturbance would force birds off the island and reduce the population of that species in Maine," Ring asked LURC to review the bird colonies nesting on islands and to insure that adequate undeveloped buffer zones are provided for their protection.

Maine Audubon believes it would be a great loss to the state if these islands become so developed that they are no longer available to the public.

WEST BETHEL FARM TEAM

FINISH SEASON WITH PICNIC AND FATHER-SON GAME

On Friday, Aug. 4, the West Bethel Farm Team finished off their season with a picnic followed by the Father-Son game. Some of the ladies had to play to make enough for a team. Everyone had a great time. The Sons won the game 8 to 7.

The coaches want to thank everyone who helped out and to all the parents who turned out to offer moral support at the practices and games.

FOODSERVICE WORKSHOP
IN AUGUSTA, AUG. 14-18

A Foodservice Workshop for instructors of vocational foodservice, home economics teachers and school lunch personnel will be held at the Capitol Area Regional Vocational Center, Augusta, Aug. 14-18.

Topics to be covered at the workshop include Metrics in Food service, Improving Student attitudes through Behavior Modification, Nutrition Education, Updating Teaching Techniques, and Resources for Foodservice Review and Evaluation.

Participants will be awarded four and one half continuing education units of three certification credits for completion of the entire week. Partial credit can be given for attendance on selected workshop days.

The workshop is sponsored by the Bureau of Vocational Education of the Maine Department of Education and Cultural Services (MDECS) and coordinated by the University of Southern Maine. Workshop supervisors are MDECS consultants Janis Cross, Consumer and Homemaking Programs, and Jean Jones, Wage Earning Programs.

oped that Maine people are forced to give up the traditional picnicking, fishing, and scenic enjoyment that we now have along the Maine coast. "There is tremendous recreational potential for Maine people on some of these islands. Effective zoning should provide reasonable public access and control of development so that future generations can enjoy the islands the way we can now," Ring said.

Ring ended her testimony to the Commissioners with additional zoning recommendations for specific islands and with a plea for a fresh approach to a unique and invaluable resource. "The type of rocky, heavily forested islands we have here in Maine can be found nowhere else along either the eastern or western seaboards. Development will alter the traditional character and use of these islands as summer fishing communities. LURC has an opportunity now to preserve the traditional flavor of these islands for all time."

Bethel—The folly of leaving funds in trust for future generations is manifested by the ill management of the ministerial funds of this town. The funds are at present so poorly invested as to yield no interest on a large part of the securities, and it is reported that nearly half of the fund is entirely lost.

Mr. Wesley K. Woodbury is now spending a few weeks vacation with his friends at Bethel. Mr. W. has been studying law for the past year at Pine Grove, Pennsylvania.

Our hotels and boarding houses are filling up fast—every train brings more company. This region has certainly many and inviting attractions for those fond of picturesque, wild nature and the pleasures of sport, with quiet and healthy mountain air. Reed of Philadelphia says it is another North Conway, Maine. Wood-covered mountains 1500 to 2500 feet rise on every side—the people and population being confined to the winding valleys of the Androscoggin and smaller streams. The distinguishing feature of the region is the evervarying and attractive intervals along the Androscoggin dotted with elms and fields of grain and not unfrequently out into larger or smaller islands by the river. Waterspout Mountain, 2200 feet high one mile in length, stretches itself through the center of the town. One of the finest landscapes here, that from its top along the Androscoggin meadows with Mt. Washington and adjacent peaks and Kearsage in the distance, and Indian names even are wanting, with the sole exception of Androscoggin and Songo, to give the region something of the dignity of age and the fascination of tradition. Instead of that we have for mountain names only the pure English Bessie, Trip, Will, Abram, Goosey, White Cap, Waterspout Mountain, Pinkham, etc. The question is now being agitated in regard to building a carriage road to the top of Waterspout Mountain. On the southwest side

slope there is now a bridge road leading from or near John Russell's house thence up by way of A. Farwell's and Barbour Farwell's thence to farm owned by Warden Farwell. At this point you find yourself within one hundred rods of the top. This road when completed will lead to the erection of a large boarding house on its top. Last week Hon. Fred Atwood and son, and E. C. Arey, Esq., Winterport, ascended the mountain and flung to the breeze a beautiful flag.

This year families are spending the summer at the Bethel House from so far west as St. Louis, and Boston and New York we believe furnishes the largest quota. New Orleans is represented. A party from Montreal is stopping

ELLINGWOOD REUNION TO BE HELD AUGUST 20

The 53rd Annual Reunion of the descendants of Asa Freeman and Florilla (Dunham) Ellingwood will be held Aug. 20, at Mrs. Ada Balentine's camp on the shore of North Pond, Gore Road, Bryant Pond. In case of rain it will be held at the Locke Mills town hall.

Family gatherings took place as early as 1900 in North Paris and continued for many years. It was revised in 1922 at the home of Mrs. Ada Balentine and organized August 23, 1923, two years after Mr. Ellingwood's death. He died March 11, 1921 at the age of 93 years. The reunions have been held yearly except the years 1942 to 1945 on account of World War II.

Mr. Ellingwood was born in Milan, N. H., April 4, 1828, one of six children born to John and Rachel (Barrows) Ellingwood, one of the first settlers on Milan Hill, N. H. He was a veteran of the Civil War, enlisting from Paris, May 4, 1861. His wife, Florilla, was one of ten children born to James T. and Sally (Houghton) Dunham of Norway. Florilla died Feb. 21, 1918, at the age of 83 years.

Mr. and Mrs. Ellingwood had a family of eleven children. A son, George, died when nine months old about 1860.

Asa Ellingwood was the seventh generation, his ancestors settled in Salem, Mass., November 1835. Florilla was of the eighth generation of Dunhams who settled in Plymouth, Mass., 1826. The Dunham family has been traced back in English history to 1294.

A great granddaughter, Florence E. O'Connor, of West Paris, has been compiling history of the families which should be completed soon.

at the new boarding house of H. R. Godwin, Esq., one of the finest in town. Mr. Godwin, formerly proprietor of Lake House, well understands the wants of his guests. C.

Mrs. Colista Morgan, Corres. — There have been clouds and more clouds this week, but on a night between, stars winked into view. Cloud drapery vanished. The moon tried its slow magic groping for the pine tops with gleaming fingers.

Overset Mountain was more crouching, than a towering guardian, and somehow seemed near at hand and more companionable.

Fireflies lit their lamps out back to show me the way to bed. I smuggled down with the expectation of a good night's sleep. But once every so often I lie awake. Why this is so I've never been able to discover. It doesn't come from any predisposition to indigestion or from tea or coffee which I seldom drink at night. Well, anyway this was one of those nights; so I heard the owl hoot, the ducks rocking in the pond, chatting with old friends, and twigs snap outside the cabin. Then sometime beyond midnight with the moon spraying through the window a breeze whispered from the mountains and swept me to sleep. But before morning I heard a surf of sound; rain softly hitting the roof. I could hardly believe it. I slept

again until breakfast time at six o'clock. It drizzled down during bacon, eggs, toast and coffee. In an hour or so the clouds cleared away and it turned into a good day.

During the non-haying days Clyde had spent time with his scythe and bush cutters clearing the Bulldozer Road. It had grown so thick with blackberry bushes, bind weed and small trees, it was hard to travel. So now cleared, I ventured to the fields where the hay had been harvested. I could see the cows, great bulks of contentment, grazing in the pasture on the ridge. Their sides were covered with outlines of patches of white hair and black. Did you ever wonder what mapmaker beneath the skin could arrange hair to grow white then to grow in irregular patches of black? It's fascinating! As I watched them they seemed to stop their grazing at a given signal and wind single file down a path to the grove of trees near the water. Seeing them go toward the pond reminded me of the day before. As we went to pick berries, a neighbor stopped to tell us that a cow was out. We found that she had waded into the pond and had gone around the end of the fence. "The grass was greener on the other side!" That started our day. Then that same day, toward evening another neighbor came to report a baby calf that had just arrived. On investigation, twins were found.

"It really is a neighborhood of those who truly care, a neighborhood where each and all their joys and sorrows share."

Cows at the beginning of the day, cows at the ending. I can picture them now as their eyes squint tight, then open wide, with the rhythms of satiety and peace.

Up there in the fields I passed beneath a maple tree that stood with branches patiently scrawled, a lesson of branching in the stainless air. Underneath, lay a blue half-shell of a robin's egg like a tiny fallen sky.

I looked at the up-and-downness of the trees, the slope of the hill, the curve of the road and the back-and-forthness of the clapboards of the farm house, all be-

ing exactly themselves. Then I turned toward home.

The road was nicely done, as I knew it would be. I realized that it is August. Dog days. Swallows busy feeding in the air. Dragonflies follow the boat. Water spiders dart about. Fish do not bite. Turkeys sun themselves. Blue herons moodily stare about. Golden rod everywhere. Milkweeds at their prime.

The lawless bushes that live for nothing except to trespass on cleared land are forgivable as they push and climb in their froth of green.

There is a busy and fun time at the Hayes Homestead this week. Mr. and Mrs. Erwin Hayes, sons, Timothy and Wallace, and Cindy Simpson, from New York are there. Mr. and Mrs. Terry Spire and three children came with their trailer from Indiana and are there. Callers over the week end were Glenn and Kevin Hayes, Gray, Del and Betty Hayes, Auburn; Mr. and Mrs. Duane Hayes and children, West Paris.

We had as callers this week Carl and Lettie Brooks, Bill and Doris Slattery, West Paris; Ruth Hastings, South Paris; Mrs. Lucy Bragg and son, Tommy, West Sumner; Eleanor Inman, Town; Jeri Holt, Windsor.

Mildred Bowman, Mabel Oldham, Lucy Bragg, were callers at Dot Curtis's home.

The Selectmen filed papers with the State Department of Transportation Monday asking for approval for expenditure of Town Road Improvement Funds on the Monkey Brook or Littlehale Road. Upon approval, the work will be done and financed by the Town with Road Commissioner James Duran in charge of the project. Upon completion the town will be reimbursed by the State. This project was started in 1975 and the road was roughed out. Funds were exhausted and the Legislature failed to appropriate funds for T. R. I. P. in 1976 or '77. Funds were restored by the 108th Legislature and are now available to complete the job. This road is now very muddy in the spring of the year, making it difficult for the two families living on the road to get in and out. The road will be graded 20 feet in width with a minimum of one foot in depth. It is expected that the work will be done later this month, or early in September. Taxes for 1978 in the amount of \$80,358 were collected and paid the Treasurer during the 30 day discount period. With the discount allowed this makes slightly over 37.5% of the total commitment collected in the first 30 days.

— Mrs. Lona Gilbert, Corres. —

Partly overcast this Monday morning following a nice week end. Most mornings temperature early mid 40° to 60° range. Some reported 42° July 31. We had a nice rain here on Aug. 4, which was needed for the gardens.

On Aug. 3 Mr. and Mrs. Alanson Cummings were in West Paris to visit Mr. and Mrs. Arthur Cummings of Portland, Conn., who were visiting at Albert Downing's as it was their 20th anniversary. They also visited at Ledgewick taking some pink pond lilies to Wallace Russell.

Sunday P. M. Mr. and Mrs. Cummings joined the well wishers at the Oxford Legion Hall, as the Arthur Hannaford's were celebrating their 60th wedding anniversary. They called on Mr. and Mrs. Mark Strother following the party.

Cathryn Lovejoy and Helmi Lofredda were in Portland one day recently. They were also in Gorham, N. H., on errands.

Quite a few friends of Mrs. Frances Bennett have called on her the past week at Stephens Memorial Hospital, Norway. They report she is improving. We hope she will soon be able to return home.

Week end guests of Mr. and Mrs. Wilbur Davis were Mr. and Mrs. David House of Connecticut. They came Saturday, returning home Sunday.

James Blaquiere and son of Oxford were visitors Sunday at the Davises. They took home a load of hay.

Clarice Gibson, Corres.

Finally had time to go out and look at the perennials. Had some mums and could hardly find them for the weeds. This is the way our minds are, if we only get bad thoughts, angry thoughts, and bitter thoughts; we finally have no room to grow in good thoughts as these get choked out. However, if we wake up each morning and think that today is going to be beautiful, even life's everyday troubles can be taken in stride. This is very hard to do as most news programs and newspapers have more depressing news than human interest stories. I have read that it has been said that sensationalism is what sells. Don't have to worry about those weeds now as Frank mowed down both mums and weeds.

Sylvia Benson came home Thursday. Her daughter, Sharon, and two girls, came Sunday to get the family's dinner. Sylvia is able to get outdoors and says that she is feeling much better.

Mr. and Mrs. Willie Wise, Deedee, Pat and Joy, from Lexington, S. C., are visiting her parents, and family, Mr. and Mrs. Frank Chapman. They drove up and spent a night in Delaware, arriving Tuesday, July 25, for a week's vacation. While here they have made sever-

al visits to Mrs. Wise's (Betsy) grandmother, Mildred Chapman, in the Stephens Memorial Hospital, Norway.

Mr. and Mrs. Frank Chapman entertained at a birthday party for Macky Chapman, Aug. 5. Besides those already mentioned were Macky's husband, Howard, and two boys, the Wise family, Mary Chapman and Bryan Plawlock. A birthday cake was made for the occasion.

Mr. and Mrs. Raymond Moran have moved out of the Cherry place and are now living in Bethel.

Mrs. Emilie Cherry has had all new copper pipes laid for her water.

Mrs. Emilie Cherry was pleasantly surprised when her son from England called last week saying that he was going to be able to come home for two weeks. He flew in the last of the week and is now with his mother. Her other son is taking his internship in a hospital in Marion, Ohio.

Ricky Angevine, son of Mr. and Mrs. Dick Angevine went to the races Friday and Saturday at Oxford Plains Speedway. He went with Nathan Greenleaf.

Carol and Melinda, daughters of Mr. and Mrs. Charles Mason, took their horses, Jessie and Donavin, to Milan, N. H. The girls came away with 14 ribbons and two

trophies. Jennifer Mason, two, daughter of Mr. and Mrs. Chuckie Mason, on Jessie took fourth place in custom class. Going to watch the girls besides their parents, and Chuckie Mason's family were Mr. and Mrs. Lee Blake, Mr. and Mrs. Ernest "Red" Blake, Marlene Bean, Peggy James and Dennise Knoter. They all took picnics and all got together for their picnic lunch. Good going girls.

Mr. and Mrs. George Gilbert had Mr. and Mrs. Arthur Head and two girls for visitors Friday and Grace Morrill visited Sunday.

Kristy Angevine cut the calf of her leg while playing Aug. 2 and her mother took her to Dr. Whitney, Norway. She is the daughter of Mr. and Mrs. Dick Angevine.

Mrs. Jean Saunders of Maryland came with her sister, Mrs. Lucy Robbins to visit their niece, Mrs. Sue Angevine, one day last week.

Mary Belle Bennett, Portland, came to visit Mr. and Mrs. Stan Brown and Mr. and Mrs. John Laban and family, Saturday.

Elaine Hutchins, Mr. and Mrs. Harlan Hutchins, Mr. and Mrs. Tim Hutchins and other friends went blueberrying Saturday and spent the day.

sachusetts, and Judy James, Melissa and Peggy, Albany, went to Santa's Village for the day. They took a picnic lunch and a good time was had by young and old. Mrs. Ruth Butters recently spent the day with her friend, Mrs. Chester Hayes, in Shelburne, N. H.

Y., were also there. They had driven up to pick up their son, Troy, who was visiting his cousin, Richard Tyler. The Saunders came back Sunday.

Also thanks should go to the parents and people who gave the players their support during the season.

All uniforms should be turned in to Dave Salway as soon as possible as all equipment requirements for next year have to be placed by Oct. 1.

Thanks Nelson, Betty and Scorekeeper, Norma.

CARD OF THANKS

I wish to thank friends and relatives who sent me cards, flowers and visited me while in the hospital. It was greatly appreciated. Thanks to everyone.

When they grow up, there won't be enough electricity to go around. Unless we build new power plants now.

If things keep going the way they are now, they won't be able to find jobs here by the time they're 21, because we won't have enough power to go around.

That's a pretty pessimistic outlook, but it's not all that far-fetched. We need to keep pace with the ever-increasing demand for electricity.

Maine's population is growing every year, and it's obvious that the more people we have, the more electricity they'll use.

But right now, regulatory procedures and the regulations themselves are extending the time it takes to build plants. This adds millions of dollars in inflationary costs that all of us will have to pay for, sooner or later, and it makes our prediction that we'll begin to run out of power in the late 80's more accurate every day.

We're caught between a rock and a hard place, because we can't seem to convince The People Who Run The World that there's a time problem.

We need public opinion on our side so we can provide the electrical energy we're required to by law. We've got to build those new plants or our kids will live in a vastly different world than the one they know now.

The Board of Selectmen met for a special meeting on Monday, Aug. 7 and acted on a variety of items. A liquor license hearing on the application of Lois Weymeyer d/b/a the Campeau House Restaurant on Broad Street (the former Dr. Young house) was held. A number of residents of the area spoke at the hearing indicating that they were against further commercialization of Broad Street. The Selectmen explained that without land use controls, property owners can use their property pretty much as they wish. No information was presented which would have been grounds of denial of the application. After much discussion, the Selectmen approved the application.

The Selectmen then met with the Planning Board to discuss current projects of the Planning Board. Much time was spent discussing the revision of the Town's Comprehensive Plan. Members of the Planning Board indicated that progress is much slower now since Cindy Kiley resigned from the CEPA position which the Planning Board had had to assist them. Board members asked that the Town seek another similar position and they told the Selectmen that the Comprehensive Plan could be completed by the first of the year if they had staff help which would be provided through the CEPA position. The two boards also discussed the need for soils maps of the town and the Selectmen agreed to write the Soil Conservation Service requesting that soils mapping be done of the area as soon as possible.

In other actions, the Selectmen approved a request by the U. S. Geological Survey for placing an observation well on the airport for monitoring ground water, appointed Mary Brown as a constable/matron and tabled action on a
